

FITBUDDY-AI FITNESS PLAN GENERATOR USING GEMINI MODELS

Phase 1: Brainstorming & Ideation Phase

The first phase focuses on identifying the project idea and defining the overall concept of **FitBuddy – AI Fitness Plan Generator**.

The main idea is to develop an AI-powered web application that can generate personalized fitness plans based on individual user information and fitness goals.

Key activities include:

- Identifying the need for personalized workout planning.
- Brainstorming AI-based fitness and wellness solutions.
- Defining the main objective of FitBuddy.
- Identifying the target users.
- Exploring the use of Generative AI for workout and nutrition recommendations.
- Defining the major features of the application:
 - Personalized 7-day workout generation.
 - Nutrition and recovery tips.
 - Feedback-based workout plan updates.
 - User and workout plan storage.
 - Administrative user management.
- Considering Google Gemini as the Generative AI platform.

Outcome:

A clear project concept and initial feature set for the FitBuddy application.
